

YOUTH TEAM SELECTION PROCESS 2018

State Youth Team Selection 2018

It is Archery NSW aim to provide the strongest possible Youth Team to compete in the 2018 National Youth Archery Championships. The following process will ensure those seeking team selection are committed to this cause whilst supporting ANSW through participation at State events and improving their personal performance through coaching at ANSW Development Days, including implementing instruction/direction given by the Regional, State coaches and their Personal coaches.

Archers accepting their selection in the team will be required to stay “in camp” for the duration of the 2018 National Youth Archery Championships. This will allow those seeking higher honours to understand, through a State Team experience, what is required by all to function well in a team environment.

The Selection Process

Archers will accumulate points throughout the year by shooting any of the “recognised events” (see Appendix A). The scores, some adjusted by the AA Rating Tables, will be added together to give the archers their final points tally. This tally will have additions applied as below.

It should be noted that your best score (highest score) only for each event during the qualifying period will be added to the archers total score, the scores will be calculated from the start of the 2017 National Youth Archery Championships (NYAC), provided the archer registers by the required date below - all scores will be updated by the Youth Coordinator and standings published on ANSW website monthly.

Scores for all team applicants will be included from the start of the 2017 Youth Nationals up until, and including, the last weekend in February 2018

2017 Team members (incumbents) will automatically be placed on the team applicant list, all other interested archers must express their interest by emailing the Youth Co-ordinator by 31/10/17. This email should include

- Bow Type with which the applicant wishes to shoot at NYAC 2018
- Current age division
- Date of Birth
- An alternative email address
- A mobile number – including parent or guardian if they are under the age of 18

The above should be sent to the following youthcoordinator@archerynsw.org.au

Team applicants are expected to shoot ALL Archery NSW State Events (see Appendix A) to give them the best opportunity of team selection. Any archers required by AA to attend High Performance (HP) camps or events, either overseas or within Australia on the days of the NSW State Events will not be penalised.

Archers Changing Age Divisions

Archers whose age division changes on the 1st January 2018 MUST submit Field, 720 and FITA 1440 Rounds for the distances they will shoot at the 2018 Youth Nationals. However, bonus points achieved at the NSW State events for their correct distance for 2017 will be applied, i.e. Archers should compete with their peers in the correct age division at NSW State events.

Archers whose age division change on the above date will have their 2017 rounds adjusted via the AA Rating table to reflect scores shot if they were to shooting an alternate round as required in 2018. This practice will cease on the 31/10/17 when archers should by then be training and shooting at the distances they will be required to shoot in 2018

As an example a Cub who will become an Intermediate on the above date and who shoots a score of 668 for a AA30/720 round (Cub) will have this converted by the AA Rating tables to a AA40/720 round (Intermediate). The adjusted score will be listed in the selection document as 633

This process will be carried out for 1440, 720, Field and Clout Rounds

ANSW Development Days

To achieve the best chance of team selection archers are strongly encouraged to attend all NSW Development days – recognition of attendance will be reflected by an additional 25 points added for each Development Day attended.

Where an archer is unavailable to attend a DD due to AA High Performance commitments 25 points will be applied to the absent archer.

The Development day bonus points will only apply to DD's after the publishing of this selection process on the NSW website.

ANSW Tournaments

Scores shot at NSW State Events (see Appendix A) will receive an added weighting of 25% to the score achieved - See note below re the NSW Metropolitan.

Any archers required by AA to attend High Performance (HP) camps or events, either overseas or within Australia on the days of the NSW State Events will not be penalised. The lowest score shot at these events will be adjusted by the AA Ratings Table to match the NSW State Events the archer has missed and the 25% bonus points applied.

Shooting Events Outside of the Correct Age Group:

Where an archer shoots an event outside of their correct age group (to be shot at the 2018 NYAC) the scores will be adjusted via the AA Rating system to match the correct round for the archers age. This ONLY relates to distances/rounds shot that are for an older age group E.G. Intermediate archer shooting a Cadet round. The adjustment of scores will not be made for distances/rounds that are from a younger age group/distance.

Calculating an Archers Team Selection Score

At the completion of the qualification period each archer will have the following applied:

Their best applicable WA or AA 1440 score achieved at any recognised events below.

Their best applicable WA or AA 720 score achieved at any recognised events below.

Their best applicable Marked Field score achieved at any recognised events below.

Their best applicable clout score achieved at any recognised events below.

All the above will be added together

The addition of 25% to all their NSW State Tournament scores for target, field and clout. No bonus points for the NSW Metropolitan event.

The addition of Development Day Bonus Points.

Divide the sum of the above by 4 to achieve the archers Final Total (to two decimal points)

Example for Joshua Jones:

Best 1440 Score	1189
Best 720 Score	612
Best Marked Field score	289
Best Clout Score	292
NSW Target Bonus	265
NSW Short Distance Bonus	184
NSW Field Bonus	99
NSW Clout Bonus	62
Development Day Bonus	125
Sub Total	3117
Divided by 4	/4
Final Total for J Jones	779.25

Team Selection:

At the completion of the selection period the top 10 Recurve archers along with the top 10 Compound archers, based on the above format, will be selected in the State Team (non-gender specific) and submitted to the ANSW COM for ratification.

Where there is an unlikely tie for the 10th position between two or more archers the decision on the selection of the final archer will be made in consultation between the NSW Youth Coordinator and the NSW Coaching Coordinator and announced accordingly.

Notes: There are no bonus points for the NSW Metropolitan event as this event is not designed for cub and intermediate archers.

No bonus points will be on offer for equivalent State run events shot interstate and sanctioned by another RGB. However, these scores can be used to form part of the archer's qualification score.

Archers wishing to qualify for the state team MUST be actively shooting events and QRE's (target and field) - at least one recognised event per month from the 1/10/2017.

The above forms the core of the 2018 team selection criteria. Minor changes may be applied and notice will be provided to all team applicants if changes are made.

Appendix A

Recognised Events

NSW State Field	- 25% Bonus Points apply
NSW State Target Championships	- 25% Bonus Points apply
NSW State Short Course	- 25% Bonus Points apply
NSW State Clout	- 25% Bonus Points apply
NSW Metropolitan Championships	- No Bonus Points due to limited distances
Jim Scott Clout	
Fred Herbert Clout	
QRE's – Target and Field	
National Match Play Series rounds	
Northern Junior Challenge (converted to the archers relevant 720 round via the AA Rating table)	
Warringah Kid Bow (converted to the archers relevant 720 round via the AA Rating table)	
Any other State or Nationally registered target round where 72 or more arrows are shot. These scores can be converted to the archers relevant 720 round via the AA Rating Tables.	
Any equivalent RGB sanctioned (interstate), or WA International events.
